

Spiral Cable Lock for Bicycles and Motorcycles

This spiral cable lock is designed for securing bicycles, e-bikes, and motorcycles. It features a flexible, high-security steel cable encased in a protective coating and includes a robust locking mechanism with keys.

Product Overview

High-Security Versatile Protection

This high-security spiral cable lock provides essential protection for bicycles, e-bikes, and motorcycles. Designed for flexibility and durability, the lock features a robust steel cable encased in a protective coating to prevent scratches while resisting cutting attempts. It is an ideal security solution for professionals and commuters looking to protect their assets in various urban environments.
