Product Overview

High-Efficiency Spiral CFL

This spiral-shaped compact fluorescent lamp provides a long-lasting, energy-efficient lighting solution for various residential and commercial settings. Designed with a convenient two-prong plug, it offers easy installation and reduced heat output compared to traditional bulbs. With a lifespan of up to 10,000 hours, this lamp ensures reliable illumination while helping to minimize maintenance and energy consumption.

Technical Specifications

Thermal Metrics

50 °C

Ambient Temp (Ta)

75 °C

Case Temp (Tc)

Lifespan	10000 hrs
Input Voltage	220V-240V 50/60Hz
Lamp Compatibility	7W-11W

Features

Key Attributes

- Spiral glass tube design for efficient light emission
- Standard two-prong plug interface
- Integrated motion sensor control
- Reduced heat output
- White light color profile

Configuration	Energy-Efficient, Motion-Sensing, Plug-In Application
