

# Spiral Compact Fluorescent Lamp

This compact fluorescent lamp (CFL) features a spiral-shaped tube for energy-efficient lighting. It uses a standard screw base for easy installation and provides a soft, diffused light suitable for general illumination.

## ADDITIONAL IMAGES

## Product Overview

### Energy-Efficient Illumination

This spiral compact fluorescent lamp (CFL) is designed as a highly efficient alternative to traditional incandescent bulbs. Featuring a unique spiral-shaped tube, it provides soft, diffused light output ideal for general residential and commercial lighting. With a standard screw base, it allows for easy installation across a variety of fixtures while offering a long operating lifespan to reduce maintenance needs.

## Technical Specifications

### Key Features

- Energy-efficient design
- Spiral-shaped tube geometry
- Long operational lifespan
- Soft, diffused light output

### Base Type

Standard Screw Base

### Suitable Applications

Residential, Commercial, General Illumination
