

Spiral Compact Fluorescent Light Bulb

This compact fluorescent light bulb is an energy-efficient alternative to incandescent bulbs. Its spiral tube design maximizes light output while minimizing energy consumption.

Overview

Energy-Efficient Lighting Solution

This spiral compact fluorescent light bulb (CFL) is engineered as a highly efficient alternative to traditional incandescent lighting. Its distinctive spiral tube design maximizes surface area to deliver optimal light output while significantly reducing energy consumption. Designed for versatility, it features a standard screw base, making it compatible with a wide range of residential and commercial light fixtures.

Technical Specifications

Design Features

Spiral Tube Design • Energy Efficient • General Illumination

Light Color	Warm White
Base Type	Standard Screw Base
Materials	Glass, Plastic

Sustainability

Disposal	Recycle properly
