

Spiral Drill Collar Slips with Hanging Slot

Spiral drill collar slips securely grip and support the drill collar during drilling operations. The hanging slot facilitates easy handling and installation.

Product Overview

High-Performance Drill Collar Slips

These spiral drill collar slips with a hanging slot are essential components engineered for demanding drilling operations in the oil and gas industry. The specialized spiral design is optimized to enhance fluid flow and effectively reduce the risk of differential sticking during heavy-duty applications. Incorporating a dedicated hanging slot, these slips improve handling, installation safety, and overall operational efficiency on the rig floor.

Technical Specifications

Key Design Features

- Spiral configuration for improved fluid dynamics
- Integrated hanging slot for efficient handling
- Kava slot included for enhanced tripping safety
- Precision-engineered for drill string weight and rigidity

API Compliance

API Spec 7-1

Customization & Fit

Optional sizing available to match specific drill collar dimensions while maintaining API Spec 7-1 standards.
