Product Overview

Energy-Efficient Illumination

This spiral LED filament corn light features a unique design that provides consistent, omnidirectional illumination. Engineered for high performance and longevity, it utilizes advanced LED chips and a stable driver to ensure reliable operation in various environments. With its standard E26/E27 base, it offers a seamless, energy-efficient upgrade for both residential and commercial lighting fixtures.

Technical Specifications

Base Type	E26/E27
Illumination Pattern	Omnidirectional
Applications	Residential, Commercial, General Lighting

Performance Highlights

Core Benefits

- Energy-efficient spiral filament design
- Long-lasting LED components
- Stable performance driver
- Standard base for easy installation
