

Split Lace Single Eye Cable Support Grip

Split lace support grips facilitate permanent installation when cable ends are hard to access. These grips support loads up to 600 lbs for vertical runs under 100 ft.

Product Overview

Standard duty support grip featuring a split lace design for easy installation on existing cables.

Professional Cable Support Solutions

The Split Lace Single Eye Cable Support Grip is engineered for permanent cable installations where the end of the cable is inaccessible. Constructed from high-quality, non-magnetic, tin-coated bronze, these grips provide exceptional corrosion resistance and durability. They are designed to absorb strain from vibration, expansion, and flexing while supporting vertical runs up to 100 feet.

Technical Specifications

Performance Data

Part Number	Cable Diameter	Bale Length	Mesh Length	Approx Break Strength
HG14L	1/4" (6.0-9.9mm)	6" (152.4mm)	6" (152.4mm)	500 lbs.
HG38L	3/8" (10.1-11.9mm)	6" (152.4mm)	6" (152.4mm)	700 lbs.
Max Vertical Run	100 ft			
Max Load Capacity	600 lbs			
Material	Non-magnetic, tin-coated bronze			
Eye Style	Single Eye			
Key Features	Split Lace, Permanent Installation, Corrosion Resistant, Multi-cable Support
