

Split-Type Air Conditioner with Remote Control

This split-type air conditioner system efficiently cools spaces. It includes a wall-mounted indoor unit, an outdoor heat exchange unit, and a remote control.

Product Overview

Efficient Climate Control Solution

This split-type air conditioner system provides a comprehensive solution for residential and commercial cooling needs. The system consists of a sleek, wall-mounted indoor unit designed for optimal air distribution and a durable outdoor heat exchange unit. With the included remote control, users can easily manage temperature settings and operation modes for consistent comfort.

System Type	Split-Type Air Conditioner
