

Sponge Mop with Telescopic Handle

This sponge mop features a highly absorbent sponge head for effective cleaning on various floor surfaces. The telescopic handle allows for adjustable length, providing comfortable use and extended reach.

Product Overview

Professional Cleaning Solution

This high-performance sponge mop is engineered for versatile cleaning across diverse environments, from residential homes to commercial office spaces. Featuring a highly absorbent sponge head, it ensures efficient liquid pickup and surface maintenance. The integrated telescopic handle provides adjustable length for ergonomic operation and extended reach, while the replaceable head design promotes long-term durability and cost-effectiveness.
