

Sponge Sanding Block

Sponge sanding blocks are designed for sanding various surfaces. Their flexible form factor makes them suitable for contoured surfaces, and they are available in different grit sizes.

Product Overview

Professional Sponge Sanding Block

This versatile sponge sanding block is engineered for consistent pressure and even results across various surfaces, including wood, metal, and plastic. The flexible design allows for excellent performance on contoured surfaces, making it a reliable tool for professional finishing tasks. Constructed with a durable foam core, it ensures longevity and reliability for repeated use.

Technical Specifications

Dimensions	100 x 70 x 25 mm
Material Composition	EVA, Foam
Abrasive Sides	1

Applications

Compatible Materials

- Wood
- Metal
- Plastic

Usage Suitability

Professional • DIY • Contoured Surfaces
