Product Overview

Premium Spouted Side Gusset Pouch

This side-gusset pouch is a specialized packaging solution designed for liquid and semi-liquid products. It features an integrated spout and secure cap, providing excellent barrier protection against oxygen, moisture, light, oil, and aroma. The durable construction offers high impact resistance, making it suitable for pasteurization, refrigeration, and retort processing.

Technical Specifications

Material	PET/PE laminate
Sealing Type	Heat seal
Filling Process	Top fill through spout (Compatible with automated machinery)

Quality & Compliance

Certifications	GMP, ISO 22000, AIB International
