

Technical Specifications

Key Operational Metrics

10 A

Conventional Heating Current

660 V

Max AC Rated Insulation

2.5 kV

Withstand Voltage

Electrical & Mechanical Data

Parameter	Value
Insulation Resistance	e5M©
Contact Resistance	d2m©
Indicator Brightness	60cd/m ²
Voltage Wave Tolerance	±20%

Durability

Service Life

- Mechanical Life: 1,000,000 cycles (pushbutton)
- Electrical Life: 5,000,000 cycles (pushbutton)
- Continuous Lamp Life: 100,000 hours
