

Spunbond Non-Woven Fabric Production Line

This production line is designed for the efficient production of spunbond non-woven fabrics. It features advanced extrusion technology and automated winding for high throughput and consistent fabric quality.

Product Overview

High-Performance Spunbond Non-Woven Fabric Production Line

This industrial-grade production line is engineered for the efficient manufacturing of PP spunbond non-woven fabrics. It supports various configurations, including S, SS, SSS, SMS, SMMS, and SMMMS patterns, to meet diverse industrial and medical requirements. Designed for high throughput and consistent quality, it provides reliable performance for long-term manufacturing operations.

Technical Capabilities

Production Speed

250 m/min

Maximum Speed

Available Product Widths	1600 mm, 2400 mm, 3200 mm
Fabric GSM Range	20-250 gsm

Configuration Options

Supported Fabric Configurations

- S
- SS
- SSS
- SMS
- SMMS
- SMMMS

Model Series Available

Series ID	Width Compatibility
100#	1600/2400/3200mm
200#	1600/2400/3200mm
300#	1600/2400/3200mm
400#	1600/2400/3200mm
500#	1600/2400/3200mm
600#	1600/2400/3200mm
700#	1600/2400/3200mm
800#	1600/2400/3200mm
