

Square Ceramic Tile with Mottled Surface

This square ceramic tile features a subtle, mottled surface texture. With a light, off-white base color and delicate variations, it offers a natural stone-like appearance suitable for various interior design styles.

Product Overview

Natural Stone-Inspired Ceramic Tile

This square ceramic tile features a sophisticated, mottled surface texture that mimics the appearance of natural stone. With its light, off-white base and delicate tonal variations, it provides a versatile and neutral aesthetic suitable for a wide range of interior design styles. Designed for both flooring and wall applications, this tile combines durability with a timeless, elegant look.
