

Square Electric Frying Pan with Temperature Control

This electric frying pan has a square aluminum cooking surface with a non-stick coating. It features adjustable temperature control and a heat-resistant handle.

Product Overview

Professional Square Electric Frying Pan

This versatile square electric frying pan is engineered for efficient countertop cooking, featuring a spacious cooking surface designed for even heat distribution. Constructed with a durable aluminum body and finished with a high-quality temperature-resistant paint coating, it ensures both longevity and ease of maintenance. Equipped with precise temperature controls and safety features like anti-skid feet, this unit is an ideal solution for commercial or heavy-duty residential kitchen environments.
