

Square Electric Skillet with Glass Lid

This electric pan features a non-stick cooking surface and a tempered glass lid. It has adjustable temperature control and cool-touch handles.

Product Overview

Versatile Square Electric Skillet

This square electric skillet is designed to provide ample cooking space for family-sized meals while ensuring convenience and safety. Featuring a high-quality non-stick surface and an adjustable temperature control system, it offers precise heat management for a variety of cooking techniques. The inclusion of a tempered glass lid allows for easy monitoring of food without heat loss, while the cool-touch handles and detachable power cord enhance user safety and storage efficiency.
