

Square Electrical Exhaust Fan for Ventilation

This square exhaust fan is designed for ventilation purposes. It is typically mounted on a wall or ceiling to remove stale air and odors from indoor spaces.

Overview

Professional Ventilation Solution

This square-shaped electrical exhaust fan is engineered for efficient air circulation and ventilation in indoor environments. Featuring a robust design with a protective circular grille and vertical slats, it effectively removes stale air, moisture, and odors. Ideal for commercial or residential applications such as bathrooms and kitchens, this unit is built with durable materials to ensure long-lasting performance and reliable air extraction.
