

Square Electrical Exhaust Fan for Ventilation

This electrical exhaust fan is square-shaped and designed for ventilation purposes. It features a circular central fan with a concentric ring design, enclosed in a square housing with a side duct for air extraction.

Product Overview

High-Efficiency Ventilation Solution

This square electrical exhaust fan is engineered for effective air circulation and ventilation in professional environments. Featuring a robust square housing with a precision-designed circular central fan, it ensures consistent airflow performance. Its integrated side duct design facilitates streamlined air extraction, making it an ideal choice for maintaining optimal air quality in various commercial or industrial settings.

Technical Specifications

Shape	Square
Key Design Elements	Concentric ring fan design, Square housing, Side duct extraction
Primary Application	Ventilation
