Product Overview

Versatile Hand Sanding Solution

These square hand sanding pads are engineered for high-performance surface preparation, featuring integrated air holes for efficient dust extraction. Designed to accommodate hook and loop attachments, they offer a consistent and clean finish across diverse applications ranging from automotive refinishing to fine woodworking. Their ergonomic design minimizes hand fatigue, making them an essential tool for professional-grade sanding and polishing tasks.

Technical Specifications

Dimensions & Configurations

Item No.	Size (mm)	Holes
3004157	70*125	13
3004158	70*200	22
3004159	70*400	14

Attachment Type	Hook and loop
Color	Yellow

Applications & Usage

Industries Served

- Automotive & Beauty shops
- Furniture & Cabinet manufacturing
- Artificial stone & flooring
- Musical instrument production
- Metalwork & Jewelry
- Plastic surface treatment

Usage Recommendations

Use with polishing liquid, Use with polishing paste, Use with polishing powder
