

Square LED Work Light with Adjustable Bracket

This square LED work light has a durable housing and adjustable mounting bracket. It is equipped with high-intensity LEDs to provide focused illumination in work environments.

Product Overview

Professional Illumination Solution

This square LED work light is engineered for durability and high-performance illumination in demanding work environments. Featuring a robust housing and a versatile adjustable mounting bracket, it is perfectly suited for integration onto construction equipment, agricultural machinery, and off-road vehicles. Its high-intensity LED array delivers a focused beam pattern, ensuring enhanced visibility and safety during night operations or in low-light conditions.

Technical Specifications

Light Source	High-intensity LED
Form Factor	Square
Mounting	Adjustable bracket

Application Suitability

Suitable Applications	Off-road vehicles, Construction equipment, Agricultural machinery
