

Square Metal Baking Pan

This is a square baking pan, likely made of metal with a non-stick coating. It features raised edges to contain the contents and rounded corners for easy cleaning.

Product Overview

Professional Square Baking Pan

This square baking pan is designed for consistent performance in both home and commercial kitchens. Crafted from high-quality metal, it features a durable non-stick coating that ensures easy food release and effortless cleanup. The raised edges and rounded corners make it ideal for baking brownies, cakes, and other desserts while ensuring structural integrity.
