

Square Metal Wire Mesh for Screening and Fencing

This square wire mesh is constructed from interwoven metal wires, forming a grid-like pattern. It provides structural support and allows for ventilation and visibility.

Product Overview

Industrial Strength Square Wire Mesh

This high-tensile square wire mesh is engineered for demanding industrial and commercial applications requiring precise filtration and structural integrity. Constructed from durable, corrosion-resistant metal, the interwoven design ensures consistent aperture sizes and long-term stability in various environments. It serves as an ideal solution for security fencing, animal enclosures, industrial guards, and general screening projects.

Technical Specifications

Manufacturing Method	Woven metal grid
Material Characteristics	High-Tensile, Corrosion Resistant, Wear Resistant

Applications

Suitable Applications

- Security fencing
- Industrial guarding
- Animal enclosures
- Filtration and screening
- Structural reinforcement

Environmental Suitability

Usage Environment

Indoor • Outdoor
