

# Square Plastic Ventilation Grille

These ventilation grilles are square-shaped and made of durable plastic. They feature horizontal slats for air circulation and come in multiple colors.

## Product Overview

### Professional Air Circulation Solution

This square plastic ventilation grille is engineered for optimal air circulation in diverse environments including homes, offices, and commercial spaces. Featuring robust horizontal slats, the design effectively promotes airflow while acting as a barrier against debris. With its versatile aesthetic and durable construction, it provides a reliable solution for maintaining air quality in enclosed spaces.

## Technical Specifications

Material	Durable Plastic
Design Shape	Square
Airflow Mechanism	Horizontal Slats

## Application

### Environment Suitability

- Residential Buildings
- Office Spaces
- Enclosed Utility Spaces

## Options

Available Finishes	Multiple Colors Available
