

Square Point Shovel with D-Grip Handle

This square point shovel is designed for digging and moving materials like soil and gravel. It features a steel blade and an ergonomic D-grip handle for comfortable use.

Product Overview

Professional Grade Square Point Shovel

This heavy-duty square point shovel is engineered for efficient digging, scooping, and material handling tasks including soil, gravel, and sand. It features a reinforced steel blade for exceptional longevity and a lightweight yet durable shaft for improved maneuverability. The ergonomic D-grip handle ensures a secure, comfortable hold, making it an ideal tool for landscaping, construction, and intensive gardening projects.
