

Square Point Shovel with Fiberglass Handle

This square point shovel is designed for digging, moving materials, and various gardening tasks. It features a steel blade and a yellow fiberglass handle with a red D-grip for comfortable use.

Product Overview

Professional Square Point Shovel

This durable square-point shovel is engineered for heavy-duty digging and material transport. Featuring a robust steel blade and a high-strength fiberglass handle, it is designed to withstand the rigors of construction and landscaping environments. The ergonomic D-grip design ensures maximum leverage and comfort, significantly reducing user fatigue during extended work shifts.

Physical Attributes

Blade Shape	Square Point
Handle Material	Fiberglass
Grip Design	D-grip

Key Features

Design Benefits

- Robust steel blade construction
- High-visibility fiberglass handle
- Ergonomic handle for reduced strain

Suitable Applications	Digging, Material Handling, Gardening, Construction
