

Square Point Steel Shovel with D-Grip Handle

This heavy-duty square point shovel features a durable steel blade and a comfortable D-grip handle. It is ideal for digging, edging, and moving materials such as soil, gravel, and mulch.

Product Overview

Professional Grade Square Point Shovel

This heavy-duty square point shovel is engineered for professional-grade reliability in landscaping and construction environments. Featuring a robust steel blade and reinforced shaft, it is designed to withstand rigorous daily use. The ergonomic D-grip handle provides superior control and leverage, making it the ideal tool for digging, edging, and efficiently moving heavy materials like soil, gravel, and mulch.

Technical Specifications

Blade Shape	Square Point
Construction Material	Steel Blade, Steel Shaft
Handle Design	D-Grip
