

Square Point Steel Shovel with D-Grip Handle

This square point shovel is designed for digging, moving, and lifting various materials. It features a durable steel blade and a comfortable D-grip handle.

Product Overview

Professional Grade Square Point Shovel

This heavy-duty square point shovel is engineered for demanding tasks, including digging, material transport, and site cleanup. Featuring a durable steel blade, it offers superior soil penetration and longevity for rigorous professional use. The ergonomic D-grip handle provides enhanced control and reduces hand fatigue during extended shifts in landscaping or construction environments.

Technical Specifications

Blade Shape	Square Point
