

Square Ventilation Exhaust Fan

This square exhaust fan is designed for ventilation and air circulation. It features a durable metal construction with a circular blade housing within the square frame.

Overview

High-Efficiency Square Ventilation Fan

This square-framed electrical exhaust fan is engineered to provide reliable air circulation and ventilation for both residential and commercial environments. Featuring a robust metal construction with a precision-designed four-blade system, it effectively removes stale air to maintain optimal indoor air quality. The unit is designed for straightforward installation, ensuring a practical solution for spaces requiring consistent airflow and improved ventilation performance.

Design & Construction

Frame Shape	Square
Number of Blades	4
Material	Metal

Application

Primary Function

Air Circulation • Exhaust • Stale Air Removal

Suitable Environments	Residential, Commercial, General Ventilation
