

Square Ventilation Exhaust Fan with Hinged Cover

This exhaust fan is designed for ventilation purposes. It features a square frame, multiple blades, and a hinged cover.

Product Overview

Professional Ventilation Solution

This square ventilation exhaust fan is engineered to provide efficient air circulation in commercial or industrial environments. Featuring a durable gray-colored frame and a practical hinged cover design, it allows for easy access and controlled airflow management. The integrated on/off switch ensures simple operation, making it a reliable choice for maintaining air quality.
