

Square Ventilation Exhaust Fan with Hinged Cover

This ventilation exhaust fan is designed with a square frame and a hinged cover. It efficiently removes stale air, odors, and moisture from indoor environments.

Product Overview

High-Efficiency Ventilation Solution

This square ventilation exhaust fan is engineered to provide reliable air circulation and moisture control for indoor environments. Featuring a durable square frame and a convenient hinged cover, it effectively removes stale air, odors, and excess humidity from spaces such as bathrooms, kitchens, and utility rooms. Its compact design and integrated control interface make it a practical choice for maintaining optimal air quality.

Physical Characteristics

Installation

Wall-mounted • Indoor

Design Type

Square frame exhaust fan

Cover Mechanism

Hinged cover (opens upwards)

Technical Features

Key Functions

- Air extraction
- Odor removal
- Moisture control

Control Interface

Integrated front panel switch
