

SS316L Stainless Steel Wire Rope 1x19 Strand

This high-quality SS316L stainless steel wire rope features a 1x19 strand construction. It offers excellent corrosion resistance, high strength, and durability for various applications.

Product Overview

Premium Stainless Steel Wire Rope

This 1x19 strand stainless steel wire rope is engineered for high-performance applications where minimal stretch and precise control are critical. Manufactured from high-grade 316L stainless steel, it offers exceptional corrosion resistance in harsh environmental conditions. The 1x19 construction is ideal for static or infrequently moving loads, serving as a reliable solution for marine, construction, and architectural rigging requirements.

Technical Specifications

Available Tensile Strengths

- 1570 N/mm²
- 1670 N/mm²
- 1770 N/mm²

Strand Construction	1x19
Material Grade	AISI 316L
Diameter Range	0.3mm - 32mm
Surface Treatments	Bright, Annealed, Electro-polished

Compliance and Standards

International Standards

- AISI
- ASTM
- DIN
- EN12385-4
- BS
- GB
- JIS

Logistics and Trade

H.S. Code	7312100000
Packaging Methods	Plywood reels, Plastic spools

Applications

Primary Applications

- Rigging
- Construction
- Aircraft
- Metallurgy
- Hardware
