

SSTP CAT7 Ethernet Cable

This SSTP CAT7 LAN cable is designed for high-speed data transmission in networking applications. Its shielded twisted pair construction minimizes electromagnetic interference, ensuring reliable signal integrity.

Overview

High-Performance CAT7 Networking

This SSTP CAT7 Ethernet cable is engineered for high-speed data transmission in professional networking environments. Featuring a robust shielded twisted pair construction, it effectively minimizes electromagnetic interference to ensure superior signal integrity. Built for reliability and durability, it meets rigorous international standards, making it an ideal choice for data centers and enterprise-grade installations.

Technical Specifications

Jacket Material

- PVC
- LSOH

Available Reel Lengths

- 100M
- 305M

Conductor Gauge	23 AWG
Cable Type	SSTP (Shielded Twisted Pair)
Insulation Material	PE

Compliance & Standards

Certifications	CE, UL, CUL, RoHS 3.0
Industry Standards	EIA/TIA 568, IEC/ISO 11801
