

Stainless Steel and Wood Outdoor Armchair

This outdoor armchair features a stainless steel frame and wooden slats for the seat and backrest. The chair has a modern design with clean lines and integrated armrests.

Product Overview

Modern Outdoor Comfort

This outdoor armchair combines a robust stainless steel frame with high-quality wooden slats, providing a perfect balance of durability and contemporary style. Designed for outdoor performance, the seat features a grid pattern that ensures both comfort and efficient water drainage during inclement weather. With its clean lines and integrated armrests, this chair is an ideal seating solution for commercial patios, hotel decks, and upscale outdoor common areas.
