

Stainless Steel Cable Tie

Stainless steel cable ties are designed for securing cables and hoses in harsh environments. These ties feature a self-locking mechanism for quick installation and are available in various sizes.

Product Overview

Industrial Stainless Steel Cable Ties

These stainless steel cable ties are engineered for superior performance in harsh and demanding environments. Featuring a self-locking mechanism, they allow for rapid and secure installation in various industrial applications. Their high tensile strength and resistance to corrosion, UV exposure, and extreme temperatures ensure long-term durability for bundling cables and hoses.

Performance Metrics

1 High

Corrosion Resistance

1 High

UV Resistance

Key Product Features

- Self-locking mechanism
- High tensile strength
- Extreme temperature resistance
- Corrosion and UV resistant

Primary Applications

Automotive, Marine, Construction, Industrial
