

Stainless Steel Drop Forged Anchor Shack- le

This stainless steel drop forged anchor shackle ensures secure and reliable connections in marine, industrial, and rigging applications. It is constructed from durable stainless steel for corrosion resistance and longevity.

Product Overview

Professional Grade Anchor Shackle

This stainless steel drop-forged anchor shackle is engineered for high-performance connections in demanding marine and industrial rigging environments. Featuring a secure screw collar pin design, it offers a reliable solution for connecting ropes, chains, and various hardware components. The drop-forged construction ensures superior strength and longevity, while the premium stainless steel material provides excellent resistance against corrosion in harsh outdoor conditions.

Technical Specifications

Material	Stainless Steel
Production Method	Drop Forged
Mechanism	Screw Collar Pin
Size	0.1875 inch

Features

Product Highlights	Corrosion Resistant, Drop Forged, Marine Grade, Industrial Strength
--------------------	---

Performance

Load Capacity

3 16

Working Load Limit (WLL)
