

Stainless Steel Electric Kettle

This electric kettle is constructed from stainless steel and features a black handle and base. It includes a water level indicator with clear markings to ensure accurate filling.

Product Overview

Efficiency Meets Durability

This stainless steel electric kettle is designed for reliable, high-performance boiling in commercial or professional environments. With a generous 1.7-liter capacity and rapid heating technology, it ensures quick service for hot beverages. Integrated safety features like dry-boil protection and automatic shut-off provide peace of mind during daily operation.

Technical Specifications

Power Performance

2200 W

Max Power Output

1.7 L

Capacity

Operating Voltage Options

220-240V 50/60Hz, 100-120V 50/60Hz

Safety & Features

Safety and Design

- Dry-boil protection
- Automatic shut-off when boiling
- 360° rotational base
- Integrated cord storage
- LED power indicator
- Visible water level window
