

Stainless Steel Electric Kettle

This electric kettle is constructed from stainless steel for durability and corrosion resistance. It features automatic shut-off and a 360-degree swivel base for ease of use.

Product Overview

Efficient Stainless Steel Kettle

The T-9010B electric kettle is a professional-grade appliance designed for rapid and reliable water boiling. Constructed from high-quality stainless steel, it offers excellent durability and resistance to corrosion in high-use environments. Featuring a generous 1.7-liter capacity, a concealed heating element, and essential safety features like dry boil protection, this unit is an ideal choice for both hospitality and office settings.
