

# Stainless Steel Electric Kettle for Rapid Boiling

This stainless steel electric kettle is designed for rapid water boiling. Its durable stainless steel body ensures longevity and ease of cleaning.

## Product Overview

### Rapid Boiling Performance

The T-902 stainless steel electric kettle is engineered for efficiency and daily reliability in professional settings. Featuring a 1.7-liter capacity and a concealed heating element, it ensures rapid boiling while minimizing mineral buildup for easier maintenance. With integrated safety features like dry-boil protection and automatic shut-off, this unit is designed for both performance and peace of mind.

## Technical Specifications

### Power Ratings

**2200 W**

Max Power (220-240V)

**1200 W**

Max Power (100-120V)

### Capacity

1.7 L

### Supported Voltages

220-240V, 100-120V

## Safety & Features

### Safety Functions

- Dry boil protection
- Automatic shut-off when boiled
- Concealed stainless steel heating element

### Operational Features

360° Rotation • Cord Storage • LED Indicator Light
