

Stainless Steel Electric Kettle with Automatic Shut-Off

This stainless steel electric kettle is designed for rapid water boiling. It features automatic shut-off and a detachable base for convenient, cordless use.

Product Overview

Professional Grade Stainless Steel Kettle

The T-909 electric kettle is a durable and efficient solution designed for high-performance water heating. Crafted with a premium stainless steel body, it features a concealed heating element that simplifies maintenance by reducing mineral buildup. Equipped with intelligent safety features, including dry boil protection and automatic shut-off, this unit ensures operational reliability for any professional or high-use environment.

Technical Specifications

Power Performance

2200 W

Max Power Output

Capacity	1.7 L
Operating Voltage	220-240V, 100-120V

Features & Safety

Safety Protections

- Automatic shut-off when boiling
- Dry boil protection

Usability

360° Rotation • Cord Storage • LED Indicator • Water Window
