

# Stainless Steel Electric Kettle with Temperature Gauge

This stainless steel electric kettle is designed for efficient and safe water boiling. It features an integrated temperature gauge for precise temperature monitoring, a durable stainless steel body, and a comfortable, heat-resistant handle.

## Product Overview

### High-Performance Stainless Steel Kettle

The T-9020T is a professional-grade stainless steel electric kettle designed for efficient and safe water boiling. Featuring an integrated temperature gauge, it allows for precise monitoring, making it ideal for specialized hot beverages. The durable stainless steel construction combined with automated safety features ensures long-term reliability for demanding kitchen environments.

## Technical Specifications

### Power Ratings

**2200 W**

Max Power (220-240V)

**1200 W**

Max Power (100-120V)

### Capacity

1.7 L

### Supported Voltages

220-240V, 100-120V

## Features

### Standard Features

- Concealed stainless steel heating element
- Dry boil protection
- Automatic shut-off upon boiling
- 360-degree rotation base
- Integrated cord storage
- Visual temperature dial
- On/off switch with light indicator
