

Stainless Steel Food Mixer

The food mixer is a versatile and robust machine designed for various food preparation tasks. It features a stainless steel bowl and a powerful motor to handle different mixing needs.

Product Overview

Professional Grade Food Mixer

This B-series gear-driven food mixer is designed for robust performance in commercial food preparation environments. Constructed with food-grade 201 stainless steel for both the bowl and mixing components, it ensures hygiene and durability. With a 10-liter capacity and adjustable stirring speeds, it offers the versatility needed for various mixing, kneading, and whipping tasks.
