

Stainless Steel Gate Valve DN15-250

This stainless steel gate valve provides reliable shutoff in various industrial applications. Available in DN15-250 sizes, it is constructed from durable stainless steel for corrosion resistance.

Product Overview

Industrial Stainless Steel Gate Valve

This stainless steel gate valve is designed for reliable shutoff in a variety of industrial applications. Constructed from durable stainless steel, it offers excellent corrosion resistance and longevity. The valve features a robust handwheel for easy operation and precise flow control, while its flanged connections ensure a secure and leak-proof seal.

Technical Specifications

Nominal Size Range	DN15-250
Valve Type	Gate Valve, Globe Valve
Standard	GB Standard
Material	Stainless Steel
