

# Stainless Steel Grinding Wheel for Angle Grinders

This grinding wheel is designed for stainless steel applications. It features durable construction for long life and efficient material removal, providing a clean and precise finish.

## Product Overview

### High-Performance Stainless Steel Grinding

This industrial-grade grinding wheel is specifically engineered for precision tasks on stainless steel surfaces. Designed for compatibility with standard angle grinders, it provides high material removal rates while ensuring a clean, professional finish. The durable construction complies with rigorous safety protocols, making it a reliable choice for demanding industrial applications.

## Technical Specifications

### Dimensions

**100 mm**  
Diameter

**6 mm**  
Thickness

**22.23 mm**  
Bore Diameter

### Operating Limits

**15300 RPM**  
Max Speed

**80 m/s**  
Max Peripheral Speed

### Specification Code

WA60N-BF27

## Compliance & Safety

### Safety Instructions

- Inspect wheel for cracks or damage before mounting
- Never exceed maximum RPM
- Handle with care to avoid breakage

### Certifications

ISO 9001, EN 12413, ANSI B7.1
