

Stainless Steel Hex Head Self-Tapping Screws with Washer

These self-tapping screws feature a hex head and integrated washer for efficient installation. Constructed from stainless steel, they provide corrosion resistance for long-lasting performance.

Product Overview

Professional Grade Fastening Solutions

These stainless steel hex head self-tapping screws are engineered for durability and reliable performance in demanding environments. Featuring an integrated washer for superior sealing and load distribution, they offer excellent corrosion resistance and ease of installation. These versatile fasteners are suitable for a wide range of industrial and construction applications requiring long-term structural integrity.

Certifications & Standards

Certifications	ISO 9001, RoHS, SGS, Bureau Veritas
