

Stainless Steel Island Mount Range Hood

This island mount range hood is designed for kitchen ventilation. It features a multi-layer filter system, integrated LED lighting, and push-button controls for fan speed and light adjustment.

Overview

Professional Kitchen Ventilation

This stainless steel island mount range hood is engineered for high-performance air extraction in modern kitchen environments. Featuring a durable 430 stainless steel construction, it offers a robust 750m³/h airflow capacity to effectively manage smoke and odors. The unit includes integrated LED lighting and intuitive electronic controls, making it a reliable and stylish solution for central kitchen island setups.
