

# Stainless Steel Meat Grinder

This meat grinder is designed for efficient meat processing in home kitchens. Its stainless steel construction ensures longevity, and it features a powerful motor capable of processing large quantities of meat.

## Overview

### Professional Grade Meat Grinder

The LG-40 is a robust kitchen appliance engineered for efficient and reliable meat processing. Featuring a durable die-cast housing and stainless steel cutting blade, this unit is built for longevity and high performance. With an 1800W motor and metal gearbox, it handles large quantities of meat with ease, while built-in safety features like a circuit breaker ensure operational stability.

## Technical Specifications

Rated Power	1800 W
Voltage / Frequency	220-240V, 50/60Hz
Gearbox Construction	Metal Gearbox & Gears
Tube Set Size	#10 Die-Cast Aluminum

## Features

### Construction Materials

Stainless Steel Blade • Die-Cast Housing • Die-Cast Aluminum

Safety & Control	Circuit Breaker, Reverse Function
