

Stainless Steel Oval Exhaust Muffler

This exhaust muffler is constructed from stainless steel. It features a 58mm inlet diameter and a 177.8x114.2mm outlet diameter.

Product Overview

High-Performance Stainless Steel Muffler

This oval-bodied exhaust muffler features an angle rolled tip design, engineered for durability and reliable performance in automotive exhaust systems. Constructed from high-quality stainless steel, it ensures excellent corrosion resistance and structural integrity. Its precise dimensions make it an ideal choice for custom exhaust setups requiring a 2-1/4 inch inlet.

Technical Specifications

Inlet Diameter

58 mm

Inlet Diameter

2.25 inch
