

Stainless Steel Plate Flange

This stainless steel plate flange is available in sizes from 1/2 inch to 80 inches. It is made from stainless steel grades 304, 304L, 316, 316L, A350 LF2, 321, 347, and 347H.

General Overview

Industrial Stainless Steel Plate Flange

This stainless steel plate flange is engineered for secure and reliable connections in plumbing and industrial piping systems. Its durable construction provides excellent corrosion resistance, ensuring long-term performance in demanding operational environments. Featuring a precise circular design with a standard bolt hole pattern, it facilitates efficient and leak-proof assembly across various industrial applications.

Technical Specifications

Material	Stainless Steel
Design	Plate Flange
Key Features	Corrosion Resistant, Leak-proof, Durable Construction

Usage Information

Suitable Applications

- Plumbing systems
- Industrial piping
- Component connection
