Product Overview

Industrial Stainless Steel Seamless Pipes

These high-quality seamless stainless steel pipes are engineered for superior corrosion resistance and structural durability in demanding environments. Available in a wide variety of 300-series grades and duplex alloys, they are manufactured to meet international standards including ASTM, EN, DIN, and JIS. These pipes provide reliable performance across diverse sectors such as petroleum, chemical processing, food production, and power generation.

Technical Specifications

Steel Grades	304/L, 316/L, 321/H, 347H, Duplex, S31803, 32750
Outer Diameter	762 mm
Wall Thickness	0.5mm - 50mm
Maximum Length	18 m

Compliance and Quality

Manufacturing Standards

- ASTM A312
- ASTM A213
- ASTM A269
- ASTM A249
- ASTM A511
- ASTM A789
- ASTM A790
- EN10216
- DIN
- JIS
- GOST

Available Testing

UT • ET • HT • PT • RT
