

# Stainless Steel Solar Wall Light with Motion Sensor

This stainless steel solar wall light is constructed to withstand the elements and provide reliable illumination. It automatically charges during the day and emits a soft light at night, and is equipped with a motion sensor for enhanced security and energy efficiency.

## Product Overview

### Modern Solar Lighting Solution

The DR-0152A solar wall light combines modern design with reliable performance for outdoor applications. Crafted from durable stainless steel, it offers an eco-friendly way to enhance security and illumination for pathways, patios, and entryways. With an integrated motion sensor and solar charging capabilities, this unit provides automated operation without the need for complex wiring.

## Technical Specifications

Housing Material	Stainless Steel
Power Source	Solar Energy
Integrated Sensors	Motion Sensor, Light Sensor

## Features

### Key Benefits

- Automatic charging during daylight
- Automated night-time illumination
- Enhanced security through motion detection
- Weather-resistant construction
- Energy efficient

Installation	Wireless/Easy Installation
